

# Mujeeb Rahman P

MERN Stack Developer

 mujibrehman8846@gmail.com  755989642  [github.com/mujeeb07](https://github.com/mujeeb07)

 [linkedin.com/in/mujeebrahman](https://linkedin.com/in/mujeebrahman)

## Professional Summary

Full-stack MERN developer with experience in both frontend and backend development. Built end-to-end web systems with authentication, payments, real-time features, and role-based access using Node.js, MongoDB, and React. Continuously learning and exploring new technologies to build better products.

## Skills

- **Programming Languages:** JavaScript, TypeScript
- **Frontend Development:** React.js, Redux Toolkit, HTML, CSS, Tailwind CSS, Bootstrap
- **Backend Development:** Node.js, Express.js, MongoDB, SQL(beginner), JWT
- **DevOps and Deployment:** AWS EC2, Nginx, Git, GitHub
- **API and Architecture:** RESTful APIs, MVC Architecture
- **Tools and Platforms:** Postman, Figma, Cloudinary, Razorpay, Nodemailer
- **Computer Science Fundamentals:** Data Structures and Algorithms

## Project

### EssenceAura – A dedicated Platform for Perfumes

 GitHub

- Designed and developed a feature-rich e-commerce web application focused on perfume sales with user-friendly browsing, cart, and checkout flows.
- Built secure user authentication (session-based with OTP login), and implemented a responsive UI using EJS templating, CSS, and Bootstrap.
- Integrated Razorpay for online payments, along with Cash on Delivery (COD) option for flexibility.
- Implemented wallet system with cashback and referral credit support; enabled referral-based user growth.
- Developed admin panel for product management with soft delete, coupon and offer management, and return handling.
- Modular MVC architecture with Express.js routes and MongoDB for scalable data storage using Mongoose ODM.
- Deployed on AWS with custom GoDaddy domain; later migrated to Render for simplified CI/CD and hosting.
- **Tech Stack:** Node.js, Express.js, EJS, MongoDB, Razorpay, Bootstrap, CSS, Cloudinary, AWS, Render

## Mini-Project

### User Management System

 Frontend

 Backend

- Built a full-stack app with user/admin roles using React, Redux, and a Node.js backend structured with clean architecture for scalable code organization.

## Education

### MERN Stack Developer Program, Brotoype

Present

- MERN Stack Development at Brotoype, gaining hands-on experience in building full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Actively developing real-world projects and strengthening problem-solving and development skills.

### Bachelor of Commerce, Calicut University (persuing)

2018 – 2021

- With a background in Commerce (Co-operation), I am actively transitioning into the field of software development through self-learning and project-based experience.
